## HARRY'S. A TRIBUTE TO RACING HISTORY.

There's more than the name behind Harry's, Lexington's newest and finest American bar. One look around the bar, and you'll notice a recurring theme— thoroughbred horses. From the tabletops to the silks that adorn the wall,

Harry's décor is a tribute to Lexington's rich racing history.

Most notably, perhaps, is Harry's exclusive Tote Board. It is a compilation of the greatest horses of all time—with a twist. We asked a select group of individuals to come together and create three dream races— races that bring together the best horses from across the years in a fantasy version of the Breeder's Cup Distaff, Sprint and Classic. The result? The Tote Board that stretches across the Harry's wall.

The tabletops are just as unique. Each table is an original made out of a collage of Keeneland memorabilia

dating back to the early 20<sup>th</sup> century. From programs to winning tickets to priceless photographs, each collage is a snapshot of Lexington's renowned racetrack. Then, of course, are the silks from some of thoroughbred racing's leading owners. Nearly every major race track around the globe have had these owner's silks grace their winner's circle. Harry's is proud to now have these silks grace its walls as part of its tribute to thoroughbred racing and its Lexington connection.

No story of horses in Kentucky would be complete without mention of the Kentucky Derby. That's why you'll find a photo of every Derby victor in the Winner's Circle since 1943 decorating our walls.

So sit down, relax and take a look around. Harry's—a tribute to our great racing history.★
